GIAS Knowledge Certification Program

Certification Description

Improve your credibility and career.

This Certificate program will provide you with a deep dive and a practitioner's perspective into the new Global Internal Audit Standards that are set to be effective in 2025. The certificate not only provides detailed information surrounding the various Domains but a perspective regarding how practitioners may work with and implement the Standards. We also compare and contrast the 2024 Standards with the 2017 International Professional Practice Framework.

The 2024 Standards do not include a separate code of conduct or a separate definition of internal audit. They are embedded within the meaning of the various domains.

See next page for certification syllabus information…
